Fresher | Software Developer

+91 7250063206 Prabhatkumarssm72@gmail.com <https://hugs-4-bugs.github.io/myResume/> Bangalore, India

## SUMMARY

---

Proactive Java Developer | BE in CSE | Expert in Software Development | Java, SQL, Data Structures, Spring Boot, Servlets, Hibernate, MySQL, JPA, Maven | Proficient in CRUD API Development, Postman, GitHub | Seeking Immediate Opportunities.

## SKILLS

---

Java, Data Structure, OOPs, SQL, Spring Boot, Hibernate, Servlets, JPA, Maven, GitHub, Postman, Software Development

## INTERNSHIP

---

### Internship in Java Development

CodeSpeedy Technology Private Limited

08/2022 - 09/2022

- Successfully created a Spring Boot project to perform CRUD operations.
- This achievement demonstrates my ability to develop Java-based applications, utilise popular technologies like Hibernate and Spring Boot, and implement fundamental data management operations.

## EDUCATION

---

### Bachelor of Engineering

Visvesvaraya Technological University, GPA 3.17/4

2019 - 2023

## PROJECTS

---

### Cryptocurrency price prediction (Final Year Project)

11/2022 - 03/2023

This program leverages machine learning to quantitatively forecast Bitcoin prices based on historical data, showcasing proficiency in data analysis, machine learning, and programming.

- The successful outcome of this project was achieving more accurate quantitative predictions of Cryptocurrency prices by leveraging data analysis, machine learning, and programming skills. [GitHub](#)

### REST-API-CRUD-Operation

Created CRUD Operation using Spring Boot & Hibernate

- CRUD Operations: Allows users to Create, Read, Update, and Delete the data. [GitHub](#)

### Sending Emails using Spring Boot

Sending emails programmatically is a crucial feature in many applications. This project serves as a guide and reference for implementing email functionalities within a Spring Boot application using the Spring Mail module. It showcases how to configure, compose, and send emails using various configurations, such as SMTP servers, HTML content, attachments, and more.

- Sending Email using Spring Boot App. [GitHub](#)

## ACHIEVEMENTS

---

### Problem Solving

[HackerRank](#) [LeetCode](#) [GeeksForGeeks](#) [GitHub](#) [Portfolio](#)
